Impact of police development strategy for the years 2016–2020. Analysis and conclusions.

The Moldovan police have undergone extensive transformation processes aimed at ensuring its modernization and development, so that citizens are provided with quality services by ensuring an adequate climate of legality in the field of public order and security. In particular, this process was marked by the Police Development Strategy for 2016-2020 (SDP) and the Action Plan on its implementation. The implementation of the Strategy was carried out with the budget support provided by the EU, without which it would not have been possible to achieve this goal.
