Specialization: Web Development

Prishtina, Kosova
Oct 2021-Oct 2024

- **GPA:** 9.7/10.0,
- **Related Coursework:** Data Structures & Algorithms, Objects & Design, Computer Organization & Programming, Combinatorics, Object-Oriented Programming, Database systems.

EXPERIENCE

Tretek SH.P.K
QA Engineer

Prishtina, Kosova
Oct 2024 – Ongoing

In my role as a QA Engineer, I am responsible for conducting testing of software applications to ensure they meet quality standards. My tasks include creating and executing test cases, identifying defects, and reporting issues to the development team. I collaborate closely with developers and product teams to verify that all features and functionalities perform as expected and deliver a smooth user experience.

Tretek SH.P.K
Full Stack Developer Intern

Prishtina, Kosova
Apr 2024– Oct 2024

As a Full Stack Developer Intern, I contributed to the development and maintenance of web applications by working with both front-end and back-end technologies. I utilized C# to build efficient server-side logic, while developing dynamic, responsive user interfaces using React.js. Additionally, I managed database operations with Microsoft SQL Server (MSSQL), including designing schemas, writing queries, and optimizing data retrieval processes. I collaborated with the development team to implement new features, troubleshoot issues, and ensure the overall performance and functionality of the application.

IPKO Telecommunications LLC
Promoter

Peja, Kosova
Feb 2022 – Jul 2023

As a Promoter at IPKO, I had a rich and rewarding experience during several promotional periods, where my responsibilities included presenting and promoting IPKO products and services, including telecommunications subscriptions, internet services, and other offerings. I developed my skills in effective communication with potential customers.

CONFERENCES

16th ICT Innovations International Conference
Presenter

Ohrid, Macedonia
Sep 2024

I presented at the NATO Workshop during the 16th ICT Innovations International Conference, delivering a presentation titled: "Towards Building an AI Models Store for Counter UAV Systems." The presentation focused on the integration of AI technologies for enhancing counter UAV capabilities, exploring innovative solutions and their potential impact on security and defense systems.

COURSES

HTML,CSS,Bootstrap,Wordpress,CyberSecurity, Arra Academy

Prishtina, Kosova
Feb 2022 – Apr 2022

Web Development (HTML,CSS,JavaScript,JQuery,MySql,PHP), Probit Academy

Prishtina, Kosova
Oct 2023 – Jan 2024
